

Sit-Up Systems

So easy to use – snaps on in less than a minute!

Announcing the new SIT-UP SYSTEM –

A quick-and-easy postural assist for flexible kyphosis.

TogRite™ muscle-assist strapping helps the iliopsoas muscle operate at a more kinesiology correct length and anchors the pelvis and hips for stability in sitting.

Immediate Benefits

- Mimics & maintains unforced manual facilitation
- Instant postural support at the pelvis & hips where it matters most
- Increased body awareness
- Suitable for school or office use
- Worn over clothes
- Flexible & comfortable.

Models & Sizes

SU100 Sit-Up X-Small: Infant

SU200 Sit-Up Small: Infant to Pre-School

SU300 Sit-Up Medium: School-Aged Children

SU400 Sit-Up Large: Teens & Adults

How to Order:

In the USA, contact TheraTogs for ordering information: info@theratogs.com

Outside the USA, the Sit-Up system is carried by leading distributors in the physical rehabilitation field; pricing will vary by country.
