

# TheraTogs Ordering Options

We know the medical device marketplace can be somewhat complicated, so we've prepared this list of options to summarize your choices:

- 1. IF REIMBURSEMENT IS A FACTOR**, request or prescribe TheraTogs through your local DME or O&P Provider. Most reimbursement for TheraTogs is provided by state Medicaid programs, state Early Intervention programs, or private health insurance companies. Depending on your state, TheraTogs may be classified as a miscellaneous orthotic (with orders placed by O&P Providers) or a miscellaneous medical device (with orders placed through DME dealers). For a map of TheraTogs-friendly DME and O&P Providers in the US, see our website at [www.theratogs.com/provider](http://www.theratogs.com/provider).
- 2. IF YOU OR YOUR CLINIC ARE BUYING**, you can order from any of the catalog distributors that carry TheraTogs products. These distributors are linked and listed on our website at [www.theratogs.com/buy](http://www.theratogs.com/buy). Here is the US catalog listing here for your convenience:

For orders outside the US, see our map of global distributors at [www.theratogs.com/global](http://www.theratogs.com/global).

- 3. IF YOUR CAREGIVER/CLIENT IS BUYING OUT-OF-POCKET**, you can help them either buy from the catalogs listed above, or they can participate in the Research Partner Program. The Partner Program is offered by Progressive GaitWays, LLC - the research, training and rehab company owned by Beverly Cusick, MS, PT, COF (the inventor of TheraTogs). You can get information from their website (<http://www.gaitways.com/rpp>) or we can send it to you upon request.

We hope you'll find these new arrangements conducive to ordering TheraTogs for your clients in the future. If you have any questions or feedback, please contact us at your convenience. Thanks for your interest in ordering TheraTogs!
